

Minhyuk Cho

Hanam-si, Gyeonggi-do, Rep. of KOREA

(+82) 10-4923-2198 | cgumgek8@gmail.com | github.com/Mindol7 | Mindol7

“While many may excel, few possess the discipline to persevere consistently.”

Education

Dankook University, Yongin-si

B.S. IN Mobile Systems Engineering

- Total GPA of 4.22/4.5, Major GPA of 4.23/4.5

Yongin, Korea

Mar. 2020 - Present

Experience

Republic of Korea Army, 66th Division

Network Operations and Maintenance Specialist

- Military Network & Computer Operator.
- Honorably discharged from the Republic of Korea Army as a Sergeant after full term of service.

Gapyeong, Korea

Aug. 2021 - Feb. 2023

Undergraduate Research Student, CSOS Lab.

Research Assistant Student

- Advisor Professor: Seong-Je Cho
- Participation in Research Projects
 1. Development of an Autonomous Driving-Based Intelligent Building Energy and Environment Integrated Management System (iBEEMS), **KETEP**
 2. Effective and Intelligent Framework for Mobile Platform-Based Vehicle Forensics, **NRF**
 3. Development of Integrated Analysis Technology for Internal and External Automotive Artifacts Using Event-Based Experimental System, **IITP**

Yongin, Korea

Mar. 2024 - Jun. 2025

WhiteHat School, 3rd – Next-Generation Security Leader Training Program (BoB)

3rd Class Trainees

- Oranized by Korea Information Technology Research Institute (KITRI)
- Completed Core and Advanced Training in Information Security
 1. Core: Security Ethics & Policy, Web Hacking, Network Hacking, System Hacking, Digital Forensics (Basics), Cloud Security (Basics)
 2. Advanced: Incident Response, Threat Analysis, Digital Forensics
- Projects: Designed and implemented a log-based intrusion detection system (IDS) in AWS cloud environment

Gasan D.C., Korea

Mar. 2025 - Sep. 2025

Publications

International

- **Conference**
 1. **Minhyuk Cho**, SunJae Kim, Seong-Je Cho, “Effects of Timestamp Manipulation in a Car Audio Video Navigation System Connected to a Smartphone via Bluetooth: A Preliminary Study”, *The 10th International Conference on Next Generation Computing (ICNGC) 2024*. Clark, Philippines.

Domestic

- **Journal**
 1. San Lee, **MinHyuk Cho**, JiHeun Jing, Seong-Je Cho, “Log Analysis Techniques for Identifying Timestamp Manipulation in Linux and Android Systems”, *THE JOURNAL OF KOREAN INSTITUTE OF NEXT GENERATION COMPUTING (KCI)*, 2024.
- **Conference**
 1. **MinHyuk Cho**, San Lee, JiHeun Hung, SunJae Kim, Seong-Je Cho, “Detecting Timestamp Manipulation in Bluetooth-Connected Smartphone and Automotive Infotainment System”, *Workshop on Dependable and Secure Computing (WDSC) 2024*. Jeju, Korea.
 2. **MinHyuk Cho**, MinSeo Jung, SuBin Kang, JungMin Yim, SeeHwan Yoo, “Security Vulnerability Analysis and Exploitation of the Copy-and-Patch JIT Compiler Mechanism in CPython”, *Korea Computer Congress (KCC)*, 2025. Jeju, Korea.. **[Excellence Paper Award]**

Patents

Patent Application

1. Network Synchronization Environment Based Time Manipulation Detection Device and Method
 - **MinHyuk Cho**, JiHeun Hung, Seong-Je Cho
 - Application No: 10-2024-0156364

Projects

Timestamp Manipulation Detection Process Development

CSOS Lab, Dankook Univ.

Projects Leader

Mar. 2024 - Nov. 2025

- Designed a detection pipeline to identify manipulated timestamps via log analysis
- Implemented detection mechanisms for Linux systems and Android smartphone & Car connected over Bluetooth
- Outcome: 1 domestic conference paper, 1 international conference paper, 1 domestic KCI-indexed journal paper, 1 patent application filed

Android Forensic Log Collection and Timeline Reconstruction Tool

Dankook Univ.

Project Leader

Nov. 2024 - PRESENT

- Developed a forensic tool to address the limitations of adb logcat and bugreport in Android systems
- Collected logs from a forensic perspective and reconstructed timelines in report format
- Currently preparing an SCI-indexed research paper for submission to Forensic Science International or Computers & Security
- Outcome: 1 patent application filed

FISHER: Fraudulent Incoming Speech Handling and Event Recoder

Dankook Univ.

Deep Learning & Security Part

Mar. 2024 - Jun. 2025

- Participated in Deep Learning and Security Module Development.
- Developed a Deep Voice Detection Model to Identify Voice Phishing Attempts

Designed and implemented a log-based intrusion detection system (IDS) in AWS cloud environment

WHS, KITRI.

Project Member

Mar. 2025 - Aug. 2025

- Designed and implemented intrusion detection systems across basic, intermediate, and advanced attack scenarios
- Developed initial prototypes using the AWS console, later transitioned to infrastructure-as-code with Terraform
- Documented all implemented scenarios in a structured security operations workbook

Security Vulnerability Analysis of JIT Compiler

KIISE.

Project Leader

Dec. 2025 - May. 2025

- Analyzed vulnerabilities in the Copy-and-Patch JIT Compiler used in CPython
- Targeted ARM-based architectures for exploit development
- Successfully executed shellcode via syscall and memory overwrite to gain shell access
- Outcome: 1 domestic conference paper published

KITTY: Keep It Talk-safe To Youth

Association of SW-Centered Universities.

Project Member

May. 2025 - Aug. 2025

- Selection of Dankook University's Representative Team
- Advancement to the Finals in the Digital Competition for Software-Centered Universities
- Developed a digital safety solution for children and adolescents to detect and prevent harmful online communication
- Selected as a representative team at DKU and advanced to the finals of a national software innovation competition
- Outcome: **TBD**

Awards / Scholars

AWARDS / SCHOLARS

- | | |
|------|--|
| 2025 | Academic Excellence Scholarship , Awarded by Dankook University, Yongin (FALL). |
| 2025 | Excellence Paper Award , Awarded by KIISE, Jeju (KCC 2025). |
| 2025 | Academic Excellence Scholarship , Awarded by Dankook University, Yongin (SPRING). |
| 2024 | Academic Excellence Scholarship , Awarded by Dankook University, Yongin (FALL). |
| 2024 | Mugunghwa Scholarship , Awarded by Gyeonggi Nambu Provincial Police (SPRING). |
| 2020 | SW Talent Scholarship , Awarded by Dankook University, Yongin (SPRING). |

Skills

Languages	Korean(native), English(intermediate)
Programming	Assembly Script, Python, JAVA, C/C++, LaTeX
Tools	FTK Imager, Autopsy, Wireshark, ElfTool, Ollydbg, GDB, etc.
DevOps	AWS, Docker, Terraform
Certificated	AWS Certified Cloud Practitioner(CLF-C02), Linux Master Level 2, Craftsman Information Processing
